

DM100™ Digital mailing system

Designed with flexibility in mind

The DM100i™, powered by Pitney Bowes' IntelliLink™ technology represents the ultimate answer to the mailing needs of busy businesses.

The latest digital technology makes processing mail quiet and efficient – the perfect office companion.

Future-proof mailing

IntelliLink™ connects Pitney Bowes' DM100i™ to a secure server, via the Internet, enabling services such as postal tariff changes, software updates and envelope messaging to be downloaded quickly and effortlessly.

Correct value postage – every letter, every time

The DM100i™ incorporates a 2.5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value.

Fast, accurate postage re-crediting

Replenish your meter 24 hours a day with simple one-touch refills via Postage by Phone – quick, secure and hassle-free. Get up to 55 days free credit with PurchasePower™ post now, pay later facility.

Easy to use

All controls are fully integrated on one clear control panel with user-friendly instructions to guide the operator through each stage of processing mail.

Streamlined processing

Efficiently frank and mail pieces up to 9.5mm thick, whilst larger mail is quickly processed with self adhesive tape strips. Mailing couldn't be simpler with up to 5 presets for your most commonly used jobs.

Strengthen your brand

Enhance and build your corporate identity by transforming standard envelopes into eye-catching branded mail pieces. Using your DM100™ to print envelope messaging on your mail is easy. Upload your envelope messaging to our website and it will be available to download to your DM100™ in about a week.
